Dear Mr. Plucker:

During March 2019 through July 2019, CalEPA and the Unified Program state agencies conducted a performance evaluation of the Colusa County Environmental Health Certified Unified Program Agency (CUPA). The evaluation comprised of an assessment of administrative documentation, regulated facility file documentation, and California Environmental Reporting System information.

Upon completion of the evaluation, CalEPA issued a final report identifying program deficiencies and incidental findings with timeframes for completion of corrective actions and resolutions. The report also noted program observations, recommendations, and examples of outstanding implementation.

CalEPA has received and reviewed the Evaluation Progress Reports submitted by the CUPA documenting the progress towards the correction of the program deficiencies and resolution of the incidental findings identified in the final report. CalEPA considers all deficiencies corrected and all incidental findings resolved. The CUPA's implementation of the Unified Program has improved from "*satisfactory with improvement needed*" to "*meets*" Unified Program standards.

I congratulate you and your team for improving your Unified Program performance rating. Thank you for your continued commitment to the protection of public health and the environment through effective implementation of the Unified Program.

If you have any questions or comments, please contact John Paine, Unified Program Manager, at (916) 327-5092.

Sincerely,

Jason Boetzer, REHS  
Assistant Secretary  
Local Program Coordination and Emergency Response
